# WEEKEND 4 DENTAL RADIOGRAPHY & IMAGING FUNDAMENTALS

Wyoming Professional Training Center & Ambitious Smiles Dental Staffing

## Chapter 1: Introduction to Dental Radiography

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 2: Radiation Physics and Safety

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 3: Dental X-Ray Equipment

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 4: Digital Imaging Systems

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 5: Intraoral Radiography

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 6: Parallel Technique

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 7: Bisecting Technique

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 8: Common Radiographic Errors

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 9: Radiographic Anatomy

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 10: Dental Caries Detection

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 11: Periodontal Disease and Bone Loss

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 12: Full Mouth Series

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 13: Radiographic Interpretation

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 14: Clinical Competencies

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 15: Final Examination

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 16: Instructor Guide

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 17: DANB RHS Preparation

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.

## Chapter 18: Clinical Radiography Lab Manual

Learning Objectives, instructional content, activities, worksheets, note-taking space, and competencies for this chapter.
